 - alx-high_level_programming
 - alx-system_engineeing_devops
 - simple_shell
 - printf
 - monty(stacks and queues – lifo, fifo)

Professional Summary

As an accomplished Software Engineer proficient in C and Python, I am dedicated to developing high-performing, innovative solutions. I have engaged in a wide spectrum of projects, from low-level system programming to dynamic web applications. My expertise lies in balancing the power and precision of C with the versatility of Python to address complex challenges effectively. I thrive on delivering solutions that exceed expectations, emphasizing clean code, testing, and continuous integration. I am proactive and staying current with industry trends. Collaboration is key, and I am eager to apply my skills and collaborate with cross-functional teams to deliver exceptional results.

Experience

January 2023—Present

ALX Africa • Africa.

- Practical coding experience with contemporary programming languages like C, Python, alongside frameworks and tools.
- Hands-on involvement in tangible projects, tackling intricate software challenges, like printf, a straightforward shell, and more.
- Interactions with seasoned industry authorities and mentors who offer valuable guidance, backing, and career growth insights.
- Chances to engage in interdisciplinary teams, fostering collaboration with a diverse array of individuals.
- Proficiency in creating, constructing, and upkeeping software applications using established industry methods and tools.
- Comprehensive grasp of software engineering principles, encompassing object-oriented programming, data structures, algorithms, and software design models.
- Acquaintance with web development technologies and frameworks such as HTML and CSS.
- Solid aptitude for intricate issue-solving and analytical skills, capable of pinpointing, diagnosing, and resolving complex software dilemmas.
- Effective communication and cooperative capabilities, enabling productive teamwork within a collaborative environment.

Languages

- *English Fluent*
- *Yoruba Fluent*

Certifications

- *Jobberman Soft Skills Training*
- *Youth Leadership Certificate*

December 2022—Present

Human Resource Assistant • Naidcare • Ikeja, Lagos, Nigeria.

- Actively involved in managing the recruitment process of caregivers and nurses.
- Maintaining accurate and confidential employee records, including personnel files, training documentation, and compliance records.
- Handling issues and conflicts between clients and caregivers, promoting a positive work environment, and ensuring open communication channels between staff and management.
- Ensuring adequate staffing levels to meet the needs of elderly clients.
- Collaborating with managers to create and maintain staff schedules, considering caregiver availability and client requirements.

February 2022—November 2022

Biology Teacher • Jeth Crown College • Badagry, Lagos, Nigeria

- Developed lesson plan which meets established school curriculum models.
- Maintained order and discipline among students while promoting safety and compliance.
- Provided a safe positive learning environment for students.
- Monitored and kept record of students' academic progress.

Education

July 2021

Bachelor of Science in Biology Education • University of Nigeria, Nsukka

• Enugu, Nigeria

Second Class Upper
